DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13,14 & 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Bushnell et al. (6,363,735). Bushnell et al discloses a window air conditioner comprising: a housing (12) of a air conditioner (10), a shroud (36) that covers an axial fan (40) and having orifice (42) that appears to inherently have an inner diameter equal to open end diameter (see figure 2). The orifice also covers a portion of the axial fan.

Allowable Subject Matter

Claims 1-12 are allowed over the prior art of record.

Response to Arguments

Applicant's arguments with respect to claims 1-14 & 17 have been considered but are moot in view of the new ground(s) of rejection.
